

Barricane

Barricane is a six piece band fronted by singer songwriters **Rosy** and **Emily**. They both write and arrange their own tightly harmonic songs. Their music is atmospheric and layered with drama, beauty and unexpected turns.

The band is made up of talented musicians who take you on a journey through a range of musical vibes- from indie folk and electronica to trip-hop and rock- all tied together with vocal harmonies and themes of existence, perspective, everyday magic and the natural world – with some epic wigouts along the way.

In February 2024, the band released two new singles, **Walking in the Dark** and **Night Out**. In January 2023 the band released a single, **Saltwater** following a busy year of gigging in and around Oxford venues and music festivals. In 2021 they released the album **The Sky and Us**. Tracks from this album and their singles have had multiple plays on BBC Introducing Oxfordshire, Get Radio and Windrush Radio. Their songs, Saltwater and Canopy, have both separately made it onto Nightshifts Top Tracks of 2023 and 2021 respectively. They are quoted as being "*...a band who deserve more than to be yet another one of Oxford music's best kept secrets.*" Nightshift Jan '22. They are currently working on album number 2!
